pCon.catalog Plugin for Autodesk® Revit® History

pCon.catalog Plugin for Autodesk® Revit® 2.0.0 (2024-02-13)

- Improvements/fixes in the creation of Revit's rendering assets.
- Updated development Revit API to 2022.
- Updated .Net framwork to 4.8.1.
- General improvements in performance, quality and stability.
- Improvements in the plug-in's core functionality to take more advantage of the "master-instance" relationship in Revit e.g.:

  - Relationship of one FamilyType to several FamilyInstance.
  - Import of planning groups as Revit groups.

Please note: In this version we will no longer support Revit version 2021.

pCon.catalog Plugin for Autodesk Revit 1.5.3 (2023-05-30)

- Support for Autodesk® Revit 2024.
- Please note: In this version we will no longer support Revit version 2019 and 2020.
