1 New Onboarding Screen

A new onboarding screen has been introduced to enhance the user experience by allowing users to verify and customize essential settings during the app's initial setup. Settings such as language (app and data), currency and tax country are automatically adjusted to the user's local conditions, with the option to modify them.

For existing users, the new onboarding screen appears once after updating to the new version.

NOTE: A new project is created automatically for both new and existing users, and the settings selected on the “Check your settings” screen are applied to it.

2 Numerieke eigenschapsaanpassing

Er is een +/- knop geïmplementeerd in de mobiele app waarmee gebruikers de numerieke eigenschappen van een artikel (zoals hoogte, lengte of breedte) in gedefinieerde stapgroottes kunnen aanpassen.
